INTERNATIONAL SEARCH REPORT

International application No. PCT/KR 2003/002821

CLASSIFICATION OF SUBJECT MATTER										
IPC ⁷ : F04B 49/12; F16H 21/20										
According to International Patent Classification (IPC) or to both national classification and IPC										
B. FIELDS SEARCHED										
Minimum documentation searched (classification system followed by classification symbols)										
IPC ⁷ : F04B										
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched										
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)										
WPI, EPODOC, PAJ										
C. DOCUMENTS CONSIDERED TO BE RELEVANT										
Category	Citation of document, with indication, where appropriate	e, of the relevant passages	Relevant to claim No.							
X	WO 2002/097271 A1 (LG ELECTRO (05.12.2002) the whole document	ONICS) 5 December 2002	1-23							
Α	WO 2003/052271 A1 (LG ELECTRO (26.06.2003) figure 3, claims 1-75	1-44								
Α	US 4 808 085 A (NISHITSUJI) 28 Fe figure 1, Abstract	1								
☐ Furt	her documents are listed in the continuation of Box C.	See patent family annex.								
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published after the international filing date and not in conflict with the application but cited to use the principle or theory underlying the invention of considered novel or cannot be considered to involve an invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of particular relevance; the claimed invention of considered to involve an invention of particular relevance; the claimed invention of particular relevance; the claimed invention of the priority document of particular relevance; the claimed invention of the priority document of particular relevance; the claimed invention of the priority document of particular relevance; the claimed invention of the priority document of particular relevance; the claimed invention of the priorit
